CLASS HISTORY

In September of 49 five scared little wolf cubs entered the doors of Thorp High School to begin the final four years of their education. They were Delores Wicks, Darrel Paulson, Dale Dekker, Marvin Grover, and Arland Peterson. After Initiation they became the wolf pack. During the second semester Jim Kirby of Bradley joined the pack.

The second year we find only four of the pack left. Marvin Grover transferred to Bradley and Arland Peterson found other interests to attract him. During the second semester Donald Bjerke transferred from Canton to join them.

The third year the class stayed the same with the exception of Don who went back to Canton.

The fourth year we find a older and much brawer pack of wolves but the pack has decreased in size again. Dale Dekker left school to join the Army. Donald Bjerke joined them again but will be unable to graduate with the pack because he didN't attend school one semester. Darrel, Jim, and Delores, the only ones left from the original pack, will graduate this spring.
